Choosing A School

Choosing a school is one of the most important decisions you will have to make, and it is one that will affect you for the rest of your life. Although all schools work on the same lines, they vary in age and traditions, in size, subjects offered, situation and general atmosphere. You will need to take all these into account and we try to help you by giving you a flavour of life.

Why Green Mount Global School?

Our school combines a central location with spacious and beautiful grounds, including large lawns and a huge woodland, whilst the ever colourful herbaceous borders are a major students' attraction. The school is located in lake city of Bhimtal. The school is close to Nainital, on the way to Almora and Ranikhet. This creates an informal close knit, friendly and supportive environment that encourages hard work and academic achievement. We give tutorial and pastoral care a high priority. The food has been consistently rated the best.

Parents also have a duty to evaluate the institution in which they wish to place their children because that single decision will have an impact on the child's future performance in life. If the child is to be placed in a residential school, away from the parent's direct care, then the responsibility to carefully evaluate that institution becomes even more important. We are presenting our credentials here briefly, and request you visit our website for more detailed information. You can feel free to contact us for any assistance or to clarify your doubts.
